

# Case-wise variable importance for LASSO-NPDR-URFP selected features

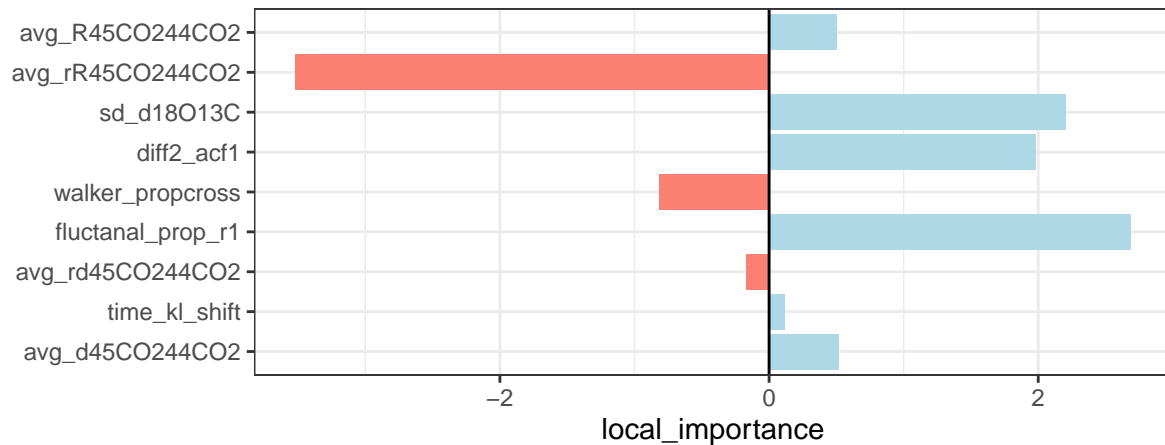

Analysis: 5880

Class:

actual = biotic predicted = abiotic

Probability (percent votes):

abiotic = 0.7245 biotic = 0.2755

variable\_permutation

decrease\_accuracy

increase\_accuracy

local importance for variable m =  
(percent correct votes OOB) – (percent correct votes permuted m)
